Seymour's Speech of Acceptance

At New York, July 10th the committee designated by the National Democratic Convention to present the nomination to the candidates performed the duty assigned them at Tammany Hall in the presence of a great concourse of spectators General Morgan of Ohio Chairman of the Committee in a brief and appropriate address made the formal tender of the nominations to Governor Seymour and General Blair Governor Seymour replied as follows

Mr Chairman and gentlemen of the Committee I thank you for the courteous terms in which you have communicated to me the action of the Democratic National Convention [Cheers] I have no words adequate to express my gratitude for the good will and kindness which that body has shown to me Its nomination was unsought and unexpected It was my ambition to take an active part, from which I am now excluded in the great struggle now going on for the restoration of good government, of peace and prosperity to our country [Great cheering] But I have been caught up by the overwhelming tide that is bearing us on to a great political change, and I find myself unable to resist its pressure [Loud cheers] You have also given to me a copy of the resolutions put forth by the Convention, showing its position upon all the great questions which now agitate the country As the presiding officer of that Convention, I am familiar with their scope and import and as one of its members I am a party to their terms They are in accord with my wishes, and I stand upon them in the contest into which we are now entering and I shall strive to carry them out in the future wherever I may be placed, in public or private life [Cheers] I congratulate you and all Conservative men who seek to restore order peace, prosperity and good government to our land upon the evidences everywhere shown that we are to triumph at the next election [Prolonged cheers] Those who are politically opposed to us flattered themselves that there would be discord in our councils They mistook the uncertainties of our views as to the best method of carrying out our purposes for differences of opinion with regard to those purposes They mistook an intense anxiety to do no act which should not be wise and judicious for a spirit of discord, but during the lengthened proceedings and earnest discussions of the Convention there has prevailed an entire harmony of intercourse, and patient forbearance, and a self sacrificing spirit, which are the sure token of a coming victory Accept for yourselves gentlemen my wishes for your future welfare and happiness [Cheers] In a few days I will answer the communication you have just handed me, by letter as is the "customary form" [Tremendous and long continued cheers]

BLAIR'S SPEECH

The following is the speech made by F P Blair, in acceptance of the nomination

I accept the platform of resolutions passed by the late Democratic Convention, I accept their nomination with feelings of most profound gratitude, and, sir, I thank you for the very kind manner in which you have conveyed to me the decision of the Convention I accept the nomination with the feeling that your nomination for the Presidency is one which will carry us to certain victory [applause], and because I believe that nomination is the most appropriate that could be made by the Democratic Convention The contest which we wage is for the restoration of constitutional government, [cheers] and it is appropriate that we should make this contest under the lead of one who has given his life to the maintenance of constitutional government [Cheers] We make this contest for the restoration of the principles of the government which belong to our race and, my fellow citizens, it is most proper that we should select for our leader, not one from the military but one who has devoted himself to the study of the understanding of our constitution and its maintenance, with all the force of reason and judgment

My fellow citizens, I have said the contest before us was one for the restoration of our Government. It is also for the restoration of our own race [Loud cheers] It is to prevent the people of one race from being excluded from their homes excluded from the Government which they formed and created for themselves and for their children and to prevent them from being driven out or trodden under the foot of a semi barbarous race [Applause] In the contest we shall have the sympathy of every man who is worthy to belong to the white race What civilized people on earth would refuse to associate with themselves in all the rights and honors and dignities of their country such men as Lee and Johnston? [Voices "None none"] What civilized country would fail to do honor to those fighting for an erroneous cause yet distinguished themselves by gallantry never surpassed [applause] in that contest for which they are sought to be disfranchised and exiled from their homes? In that contest they proved themselves our peers [At this point there was a ominous silence, followed by repressed clapping of hands and faint cheers]

My fellow citizens, it is not my purpose to make a lengthened address, but simply express my gratitude for the distinguished honor which has been conferred on me, and now, from my heart, I reiterate the words of thanks that fell from my lips when I rose

Klamath Lake Items

The Jacksonville *Sentinel* of the 25th, says

From Capt I D Applegate, we got the following items from Ft Klamath and vicinity Capt McGregor was under marching orders to join Gen Crook in the Indian country He had set Saturday the 18th, as the day for starting Capt F B Sprague returned on the 14th, from Camp Warner, where he had been sent with messages to Gen Crook Capt S confirms the reported surrender of Big Chief Wa ma waw of the Snake Tribe and it is thought that a vigorous campaign this summer will restore peace throughout our eastern frontiers

Dr Wm McKay of the Dalles formerly Captain commanding a company of Warm Spring Indian scouts, arrived at the Klamath Agency yesterday He came through from the Warm Spring Reservation in company with three Klamath Indians No Snakes were seen and have not been in that part of the country this spring or summer the probabilities are that their presence is more needed further east

The prospects, in an agricultural point of view out there are more flattering than they were a month ago Both gardens and grain fields are coming out much better than ever expected The grain on the Reservation farm is as fine as any in the State particularly the barley which is now just heading and is very heavy The oats and barley at Link River, which was put in the ground in any decent style, will make a good crop Musketoes and flies are very troublesome at the Lakes

British Colonial Confederation The [illegible] of the people of [illegible] in favor of Confederation settles forever that question on the Mainland New Westminster Yale Lytton Buonaparte, Clinton and Barkerville are all in earnest all determined to have Confederation and have it without delay The next step in contemplation we learn is a convention of delegates from all parts of the Colony to frame a memorial to the Queen and the Government of Canada, demanding Confederation and representative institutions and send the memorial to both Governments by a delegate We also hear it intimated that there is shortly to be a public meeting called in further[ance] of the same objects, and to [illegible] a full representation of grievances in the proper quarter *Colonist*

Concerning the Brig Nightingale The *Nightingale* which left Esquimalt in the early part of spring has been heard of from Valparaiso having entered that port in 70 days from Esquimalt making 14 inches of water It will be remembered she took from this port a portion of the telegraphic cable brought here by the ship *Egmont* and intended for laying across Behring's Straits On the 16th of May she met with a heavy gale when she sprung a leak and on the 24th had her foremast carried away It will take her about two months at Valparaiso to get ready for sea again *[illegible]*

Response from the People

IN WASHINGTON

[Special Dispatch to the Chicago Tribune]

The New York nominations continue to be the general theme of conversation, and the Democratic Congressmen are just as free as they were yesterday in expressing their disgust at the selections made They see that Seymour's Copperhead record and Blair's Brodhead letter cannot be sustained and the feeling about the latter is so strong that Senators Davis and Buckalew both publicly disavowed it in a debate in the Senate to-day and declared that the Democratic party can not be charged with its endorsement even if they have nominated its writer for Vice President One Democratic member of the House from Pennsylvania speaks of Blair as a d—d fool for writing it and a greater d—d fool for printing it Mr Barnes Democrat from Brooklyn telegraphed to a leading delegate in the Convention yesterday, after the news of the nomination of Seymour was received that the Republicans were jubilant and the Democrats depressed that the matter ought to be reconsidered and Seymour made to decline The leading Democrat in the Indiana delegation, when asked what he thought of the nominations held up his hand in a depreciating manner and answered, "Hush, my friend you are treading on a newly-made grave One of the Ohio Democrats, when asked a similar question replied that the ticket could not carry a single State west of the Alleghanies The ablest Democrat in Massachusetts, though not now in official position spoke this morning of the Convention work as "Amazing perfectly amazing," and then added I did hope they would give us a new plate this time, but it is the same old dish of hash they made at Chicago four years ago Mr Seward remarked to a gentleman this morning that Gov Seymour had a great faculty for running behind his ticket The only thing with which the Democrats seem pleased is the slaughter of the Chief Justice They chuckle over this a great deal, and make all sorts of pleasant remarks about his innocence and simplicity Republicans speak of him as the deadest man, politically, now living and Democrats suggest that the Republicans might give them a vote of thanks for laying him out Mr Seward talks to him as "poor Chase," "poor Chase"

MILWAUKEE, WISCONSIN.

Milwaukee, July 10.—The nominations made at New York yesterday fell like a dead weight upon the heretofore buoyant Democrats They had their gun ready to fire the moment Pendleton's or Chase's nomination was announced, but when the names of Seymour and Blair grated on their ears they were dumbfounded and paralyzed, and the poor gun remained silent until evening when a faint salute was fired Without the least exaggeration or untruth it can be stated as a fact that there is a widespread dissatisfaction, amounting almost to disgust, among the heretofore unterrified at the shrewd trickery practised by the Seymour clique upon the West [illegible] delegates, and bets were freely offered on Pendleton and Chase are entirely withdrawn The election of Grant and Colfax is conceded beyond all peradventure

LAWRENCE, KANSAS

Lawrence, July 10—The Democrats here are greatly disgusted with the nomination of Seymour and Frank Blair Four-fifths of them preferred Chase The Republicans are pleased with the nomination, as they regard General Grant's success rendered certain beyond contingency

The *State Journal*, which it is believed, would have supported Chase on the basis of equal rights to all, of all classes and both sexes, says of the New York Convention "The Democratic party in the hot days of July, has preferred death to life Guided by the demon of insanity, it has rushed to suicide The galvanic shock of the Chase movement inspired for a time in the party a nobler impulse a grander future and better purposes If brains were weighed by the pound it would have succeeded, but numbers outruled brains and virtue, and with it reaction, and the cold damp of death settled upon the party, and Seymour and Blair lead the mournful procession to the tomb An avalanche of ice from Alaska could not have a more chilling effect upon the Democracy of Kansas than the nomination of Seymour and Blair"

DUBUQUE, IOWA

Dubuque July 10—The news of the nomination of Seymour for President by the New York Convention, was well received by the Democracy here but it seems quite useless to attempt to get up any enthusiasm over Blair A salute of six guns was fired from an old anvil and a few rockets were let off last night in the way of celebrating

WAUKEGAN

Waukegan July 10—The nomination of Seymour and Blair by the New York Convention was not received by the Democracy of this city with any manifestations of delight, and the news created disgust rather than enthusiasm Republicans are jubilant and confident of success, while the Democrats are crest fallen No demonstrations, worthy of mention were made

FROM INDIANA

Indianapolis June 13—The Democracy of this State are still in a state of demoralization The nominations do not elicit any enthusiasm whatever and in many parts of the State the curses come thicker and more frequent This is especially the case with the Eighth Congressional District which district Frank Blair canvassed in 1860 for Hon Thomas H Nelson and against Dan Voorhees He was specially abusive of the Democrats, calling them hell hounds etc

The Tipton *Times* the most influential Democratic paper in the Eighth Congressional District contains the following

Here we come The New York infamy has convinced us of the necessity of taking our stand with the workingmen's party here to be organized under the banner of General Cary We are for the Tin Bucket Brigade Our unfaithful and infamous delegates to the New York Convention sold us for Wall Street gold and we propose knowing how much we brought—knowing what white men are worth in the market Seven or eight of our delegates were faithful to their trust among whom were J M Dickson of Madison and C H Reeve of Marshall The others have rendered themselves infamous for all time to come At the very time when Indiana if it had remained true would have run up Pendleton's vote to seven more than a majority one G N Fitch of Logansport split the delegation and took off nine and one half votes of the thirteen Financially we cannot censure him but political he is dead and damned We appeal to you the people irrespective of party who do not propose that ourselves and your posterity to the latest generation shall be the dupes and slaves of the bondholder to rally with us around the workingmen's banner and repudiate and spit upon all such rascality

One commendable feature in the new Tariff bill just reported to the House of Representatives by the Committee of Ways and Means is that which admits free of duty books in foreign and dead languages and scientific treatises of which no editions are printed in the United States It is quite evident that such works are of value only to students and men of science and the fact that the quantity of them imported can affect the revenue only to so trifling an amount as to be inappreciable

San Francisco pays one sixteenth of the whole whisky tax of the United States No wonder that City went Democratic at the last election

THE BOHEMIA MINES

Eugene City July 26, 1868

Editor Oregonian

Acting on the presumption that you have not already an established local correspondent at the Bohemia mining camp and at the request of a number of acquaintances whom I found there, in whose integrity I place implicit confidence, I send you a few lines as to the result of what I saw and heard recently in this newly discovered gold and silver region The discovery however is not entirely new having been partially made some years since but the knowledge of the fact that the precious metals are there in paying quantities is of quite recent introduction to the public, and may not yet be as generally known as it should be. Leaving Eugene City on Monday, the 20th inst., I made a short ride and remained over night at a farm house on Coast Fork of the Willamette and the next day reached the farthest convenient camp where grass is plenty for animals, by making a short half day's ride Then on the morning of the 22d we mounted our horses and by a very easy day's travel reached the camp, finding but one obstacle to overcome on the way—that of the romantic and fatiguing [illegible] of Fairview mountain Reaching the vicinity of the snow region at this season we were in the midst of Bohemia district The two lodes now attracting the most particular attention are the Grey Eagle, principally silver, and the Excelsior, gold and silver. The former is now known to be very rich in silver it being an easy matter to [illegible] out the metal in a common forge. The latter [illegible] to run into silver as the ledge descends, having gold distributed very evenly and in paying quantities near the surface of the lode. The gold is quite fine yet clearly visible in numerous places to the naked eye

There are two arastras in process of construction—one by a company from Coast Fork, and another by a company from Roseburg. There is a fixed determination among the parties there now at work to pretty thoroughly develop the ledges the present season, which there is no reason to doubt will be quite satisfactory to all concerned The assays have frequently been made public ranging from moderate pay to eleven hundred dollars to the ton on a calculation made from from small quantities of ore, but lately [illegible] have been sufficient quantities of rock taken below to give quite satisfactory results, and it is now known that in some of the lodes the pay is good and easy of access. The actual distance of this camp is not more than 60 miles from Eugene City, and is a little farther from Roseburg, situated this side of the Cascade [illegible] on a spur of the Calapooya mountain, on the line dividing Douglas and Lane counties. There are at present about forty men at work there, having two camps, one adjacent to Mt. Majesty and one near War Eagle mountain, all in the Bohemia district I never saw a more general appearance of confidence in a mining camp than exists among the men here. There are [illegible] many [illegible] taken, but room for hundreds more, and what is most needed there now appears to be [illegible] quartz miners and men of capital, willing to make safe investments not in [illegible] for the lodes are ample for all—but in taking out the ore and converting it into money. The main direction of the two lodes I have mentioned is east and west, bearing to the north-west and south-east, and the two running on a straight line and parallel to each other, as already [illegible] for several miles These lodes are [illegible] defined, with a uniform dip and [illegible] outcropping in many places There are [illegible] other lodes in the district considered very [illegible] among the most popular of these are the [illegible] tories and Silver Legion, but not having examined them as yet, I cannot describe them in particular Very respectfully, yours,

J. M. GALE.

It is calculated that £10,000,000 would defray the expenses of the projected tunnel under the English Channel from Dover to Calais, and that the work could be completed in ten years.

From Honduras we learn that work has been commenced on the Inter-Oceanic Railway

MATTERS ABOUT SALEM

SALEM July 28

General business is rather dull in Salem sharing the depression common to all our towns during the harvest season when country people are engaged busily at home Nevertheless the principal industries of Salem do not flag, and work in the mills, factories and shops is going steadily forward

There is probably very little of last year's crop or grain left in the valley at this time Most of it has been shipped or consumed and the proceeds have been applied to paying old debts or making improvements, so that ready money is rather scarce Just now in the interval between the last and the coming crop, farmers and country traders have little to buy with Whether there will be any marked improvement in trade after the harvest is all gathered in, depends on the contingency of finding a paying market for the products of the State Whoever studies "the situation" attentively will be convinced more and more that the true interests of Oregon consist in finding a way for the direct exportation of our products in order that the enormous profits which are made by San Francisco speculators out of Oregon commodities may be saved in the hands of our own producers.

There are reports that the spring crops will not be so good in the central parts of Wallamet valley as was anticipated, for though the growth of stalk is very rank, the yield of grain does not promise to be in proportion with it. The yield, however, will be large, and those who have taken the pains to ascertain the probable facts about the maturing crops are of opinion that after this harvest there will be vastly more grain in the Wallamet valley than at any former time.

LIVELY TIMES IN ANTICIPATION

Though the business streets of Salem wear a somnolent appearance at present, the city expects to have a goose to pick shortly, when the Legislature and Supreme Court assemble and the State Fair is held. Undoubtedly a lively time may then be looked for here From [illegible] sources the information comes that the long hungering "Democracy" are expected to some flocking from various parts of the State to assemble around the political flesh pots; and if reports put in circulation by the "[illegible]ified" prove true, and an attempt is made to carry out their programme in the Legislature, what a cauldron of Democratic broth will be bubbling here!

[illegible] MATTERS.

In [illegible] there is the usual inquiry and talk about railroads, and the usual feeling of uncertainty in regard to the final achievement of the [illegible] which have been projected It is said that some of the citizens of this place are quite indifferent to railroad matters, feeling that people from this vicinity and above might, if a railroad is built, go past Salem and do their business below. Without [illegible] the merits of the enterprises on foot, or expressing any opinion adverse to them, it may be fairly said that there is a good deal of dissatisfaction hereabouts in regard to the manner in which railroad affairs have been conducted. The strife between the two companies is the main thing which has led to this [illegible]

THE WOOLEN FACTORY

at Salem now runs night and day, and the company is buying up large quantities of wool The capacity of the works has recently been greatly increased. This company, controlling the unsurpassed water power at this place, is now and will continue to be, the leading power in the industry of Salem

THE OIL MILLS

is an important interest, and deserves more than incidental mention. The proprietors [illegible] to supply Oregon with linseed oil, and [illegible] to keep the market stocked at such [illegible] as will prevent importation. The mill, [illegible] on full time, would make 400 gallons of oil every twenty-four hours; but as yet it [illegible] only by daylight. Great care is taken to clean the flax seed used, and the first process in oil making is to put the seed through [illegible] which removes all wheat, oats, and smaller seeds, and every particle of dirt and chaff. The seed thus cleaned is then crushed by passing it between two solid and heavy iron cylinders. It then goes upon the miller, where it is further crushed and ground by two heavy stones, running on their circumference and driven by a large perpendicular shaft These stones weigh six tons each and are driven with considerable rapidity, thoroughly breaking up the seed. The meal in this state passes into an iron chest where it is heated by steam It is then placed in small bags about two feet in length, each holding perhaps ten pounds, and subjected to hydraulic pressure. The hydraulic engine is of the most perfect construction, and is capable of giving a pressure of five tons to the square inch The oil, as fast as made, is drawn off through pipes to another building, where it is either boiled or put up in its raw state, as may be desired

It is the intention of this Company to procure machinery for preparing the fibre of flax for use. They have some machinery for this purpose already, and will immediately add more and put it into operation The flax will be prepared by the heckle and baled, and will then be ready for other machinery to take hold of it and make it up into bagging cordage and whatever else may be wanted The demand for these articles ought to make the manufacture of flax a profitable industry Flax, however, is a crop which may be grown with profit for the seed alone Last year the yield of the seed per acre was about twelve bushels, this year it promises to be much more It sells at the oil mill at $1 50 per bushel.

HARK FROM THE TOMBS —Governor Helm of Kentucky, after doing what he could to undo the work of our Revolutionary Fathers died Before shuffling off this mortal coil Governor Helm feeling himself bound to give the world the benefit of his opinions on the future prospects of the country made a will in which he bequeathed the following prediction 'The South was conquered but in my firm conviction the North will sooner or later learn that they are the whipped party It would seem that Governor Helm must have seen with a prophetic eye that the next National Democratic candidates would be men pledged to the lost cause and that he believed they would be elected

A Chronic Slow Coach

Secretary Seward while the news of the New York nominations was still fresh in Washington City, remarked to a gentleman "Gov Seymour has a great faculty for running behind his ticket" The remark is signally verified by Seymour's record as a candidate Within the last eighteen years he has been a candidate for Governor of the State of New York five times In 1850 he was beaten though every other Democratic candidate on the ticket with him was elected In 1852 he was elected by a scratch though the rest of the ticket received majorities ranging from six to seven thousand In that year Pierce obtained a plurality over Gen Scott of 27 201 In 1854 when he was a candidate for the third time he was again behind his ticket and beaten out of sight In 1862 he ran against Gen Wadsworth being elected by a majority of 10 752, which was the smallest majority on the State ticket In 1864 Seymour was beaten by Fenton by a majority of 8 293, while the majorities against Jones Lord and McNeil who were on the ticket with him for Lieut Governor Canal Commissioner and Inspector of Prisons were only 7 716, 7,725 and 8,115 These facts would seem to indicate that the people of the State have a queer way of manifesting their affection for New York's "favorite son" Seymour never had in himself the elements of popularity and never yet succeeded in exciting any great degree of enthusiasm His successive nominations for Governor were procured through the stratagems and wire pullings of a band of political tricksters just as was his late nomination for President He is the most unpopular man in New York and outside of the "bloated bondholders" and the political stock jobber's rings will obtain a weaker support from his party in New York than any prominent politician before the Democratic National Convention And Seymour was well aware of this when he told the Convention that his nomination would place the success of the party in peril We are content to take his own augury of the result satisfied that the Democracy of his own State as in times past, will support him only as they are driven by the lash of party discipline, while the Republicans who know him and despise him more cordially than any other man in the State, will rally against him as unanimously and enthusiastically as in 1864

HANCOCK BEWAILETH HIS DEFEAT —A Washington dispatch of the 12th inst says "General Hancock speaks freely to his friends of his disappointment, and charges his defeat to Seymour, claiming that the adjournment on Wednesday was attempted solely to kill him, and that though the motion really failed, Seymour declared it carried. Hancock says but for this fraud he would have been nominated on the second ballot thereafter" Hancock, among the diabolically ingenious and unscrupulous political managers of New York on the one side, and the Wade Hampton element, whom he had thumped about during the late fratricidal war, on the other, was sadly out of place and was most cruelly butchered But as he forgot his duty to his country, through the promptings of an unholy ambition, and placed his neck voluntarily within the infernal machine, we doubt if anybody will be seriously disposed to bewail with him his untimely end

Let every patriot of Oregon remember that at the Democratic ratification meeting at Richmond, Virginia, July 11th, Gov Vance, one of the speakers, declared that "what the soldiers of the Confederacy fought for, would be won by the election of Seymour and Blair."

Let them remember that Henry A Wise another speaker at the same meeting declared that "secession still lives", that while he supported both the nominees, he "especially supported Blair because he had promised revolution."

Let them remember that the *Herald*, speaking for the Democratic party of Oregon, fully endorses Blair's revolutionary letter, and declares that "the Democratic party is pledged to revolution."

Horatio Seymour presided over the Convention which nominated McClellan and pronounced the war a failure The people couldn't see it in that light and the war went on. Horatio was wrong and the people were right. Horatio again presides over a Convention which nominates him and declares that the people have gone all wrong The people won't be able, again, to see it in that light Horatio will be proven again mistaken and the people again right. The people will elect their champion and hero, and not his traducer of 1864

DEMOCRATIC TESTIMONY —Here is what the New York *World* not long ago said of General Grant "Of the sturdiness and staunchness of Grant's patriotism, or the uprightness and solidity of his character no man in the country doubts, or affects to doubt" The *World* and most of the Copperheads are now conducting a campaign against Grant by saying, he smokes and his name is Hiram

Senator Buckalew, of Pennsylvania, who is a Copperhead of the first water, in the United States Senate denounced Blair's letter as containing a "rebellious and revolutionary proposition," and declared that he would not be bound by it Seymour and Blair, however stand by it, and so does the Democratic party, including that portion of it in Oregon

MILO HOADLEY whose name was used as one of the Vice Presidents at the Seymour and Blair ratification meeting at San Francisco, has published a card in the *Bulletin* saying his name was used wholly without authority, and that he will support and vote for Grant and Colfax

Sergeant Bates carried his flag through the South and had a high old time but when he took himself and his battle scarred flag into the Democratic National Convention, both were treated with silent contempt The Sergeant and the flag had got into the wrong pew

The Lafayette *Courier* is engaged in a prodigious effort to show that General Grant is not a very successful soldier We suspect that Mr Grant will feel very much mortified when he learns Gen J W Jasper's opinion of him

D B Turney has abandoned the project of starting a newspaper—'*The Vanillian*' at Lafayette Failure to borrow the necessary funds caused the failure of the newspaper enterprise The young man has probably made a lucky escape

Gen J W Jasper J[illegible] of the Lafayette *Courier* commands the faithful thus "Organize, bros! organize! Let us meet the enemy on the high roads" Query Are Gen Jasper and his troop of bros going into the freebooting business?

The Lafayette school is to have an examination and picnic on Saturday, August 1st

POLITICAL ITEMS

The New York *World* tells the whole truth about the New York Convention, when it said "Minorities must amuse themselves"

The nomination of Hon John A Griswold as the Republican candidate for Governor of New York, is received with great cordiality and satisfaction by the Republican press of the State. No better man could have been named

The Richmond *Enquirer* closes an article on the Mississippi election as follows "Thus stands true to the faith of their fathers, the noble people who loved and honored Jefferson Davis, the 'noblest Roman of them all'"

Seventy voters of the Democratic persuasion came in a body to a Republican caucus at Auburn, Maine a few evenings since and announced their intention to work and vote with the Republican party in the future

The Providence *Journal* says, that during the Democratic Convention, the Fifth Avenue Hotel presented a scene of rare disorder More than one half the delegates lost their carpet bags, and a man with a clean shirt was considered out of order

The Boston *Advertiser*, of Friday morning contains a letter from Henry Ward Beecher, in which he emphatically contradicts the report that he was in favor of Judge Chase for the Presidency He says he has favored General Grant from the first, and compares him to Washington.

The Copperheads of Memphis are rejoicing with exceeding great joy over the conversion of a "Radical nigger" to pure Democracy The "niggers" name is John F Harris, and the *Avalanche* judging from its ecstatic utterances, regards it as the greatest political event of the season.

It was Vallandigham whose persuasive voice caused the nomination of Seymour, it was Gen Preston, of the Confederate army, Gen Forrest, who massacred Union men in cold blood at Fort Pillow, and Gen Wade Hampton, a rebel of South Carolina, who caused the nomination of Blair

The London papers generally consider the Democratic nominations unfavorable to success The *Standard* thinks sanguine Democrats may well doubt if Seymour can defeat the most popular American warrior The *News* says defeat is certain to follow the selection of so weak a candidate as Seymour

The Cincinnati *Commercial* says It is reported in New York that Mr Chase has written his thanks to the Massachusetts delegation for their four votes, and expressed his confidence that the Democratic ticket will be elected He expects a large Republican vote for the candidates, on account of Blair's war record The Chief Justice is evidently cultivating a latent talent for irony

The new Freedmen's Bureau bill passed by the Senate July 11th, peremptorily withdraws the bureau from all the Southern States next New Years, except so far as the educational work is concerned, which is to be continued till Congress takes further action It also keeps General Howard at the head and deprives the President of power to remove him for any cause.

Gen Sherman was stopped on the street in St Louis, on Thursday, by some enthusiastic Democrats, soon after the Seymour nomination was received, and asked if he would support Seymour He replied emphatically, no, that he was for Grant, and that Grant would be elected One of the party replied that they did not want the support of a house burner Gen Sherman walked off, leaving the taunt unnoticed

The Rockford (Ill) *Gazette* states that upwards of one hundred Democrats—a majority of them Fenians—took part in the Republican primary elections of that city, the week previous, and pledged themselves to vote for Grant and Colfax As Rockford would never poll more than two hundred Democratic votes we would suggest to the few left that they also come over to our side to save them from lonesomeness if nothing else

Disposition of the Public Lands

A summary from Mr Julian's report shows the following result of the dispensation of public lands

The Government, since its organization, has sold lands amounting to over 141 000 000 acres

Of the lands sold there remain in private hands not reduced to occupancy as farms, over 40 000, 000 acres

The Government grants of land to Western and Southern States to aid in constructing railroads amount to over 57 000 000 acres

The grants to different lines of Pacific railroad companies, 121 000 000 acres

The amount of land granted and to be granted to the States under the acts of Congress of July 2 1862 to aid in the establishment of Agricultural Colleges reaches 9 000 000 acres

The lands granted to the States under the different acts of Congress as "swamp and overflowed lands" amount to 13,000 000 acres, making a total of 218 000,000 acres of land This is exclusive of the Indian lands previously enumerated and also of the sections given to the Western States for the benefit of their school systems

The lands granted to the Pacific railroads alone amount to 193,250 square miles—a territory within 11 075 square miles as large as France with its population of 6,000 000 If we take the grants to secondary roads (as for instance the 9 000 000 acres and more of public lands given to Kansas on admission for railroad purposes) we shall probably have a domain equal to Great Britain Ireland Prussia and Switzerland combined

THE REVOLUTIONARY PARTY This from the *Herald* of July 29th

"That man is ignorant of the traditions and the history of the Democratic party who believes it will, for the sake of peace, compromise or temporize with a policy established by perjury and treason The Democratic party is pledged to revolution, to a complete overthrow of the so called acts, the restoration of the Union and the Constitution and the re-establishment of white supremacy throughout the land No Democrat seeks to evade or avoid this issue"

We hear that Union men are depositing money at various places in California offering to bet that the State will go for Grant Notwithstanding frequent banters no takers have yet been found

[DISPATCHES TO THE OREGONIAN]

DATES TO JULY 29.

Enthusiastic Reception of Colfax

CHICAGO July 28 —Schuyler Colfax arrived to night He had an enthusiastic reception Several thousand people escorted him from the depot He leaves for South Bend tomorrow, where there will be a grand demonstration

Georgia Senators.

ATLANTA, July 29 —Joshua Hill is elected Senator for the long term and H B Miller for the short term

Tennessee Legislature

NASHVILLE July 29 —A bill unanimously passed the Senate to day expressing the inability of the State to meet the interest to provide for funding the State debt principal and interest, in thirty year bonds, at six per cent interest payable at Nashville In the Senate a resolution was offered to raise a joint committee to wait upon the Governor and ask him to recommend the removal of the political disabilities of disfranchised citizens of Tennessee

Missouri News

ST LOUIS July 29 The large saw mill of Hill Lawson & Co was burned to day Loss—45 000 dollars

Generals Grant Sherman and Sheridan had an enthusiastic reception at Macon, Mo, to day They will reach St Louis to day

Francis J Rodman Secretary of State has sued the *Republican* newspaper for libel in damages of 50 000 dollars

The *Press* has an account of a Democratic meeting in Saline county last Saturday which was attempted to be broken up by Radicals Pistols were freely used and a general battle ensued Three Radicals were killed outright and a number on both sides seriously wounded

BY ATLANTIC CABLE

LONDON July 29 —The *Times* comments on the passage of the American citizenship bill by Congress It thinks it a direct bid for Irish votes in the Presidential election and says there is nothing in the general principles of the bill for England to deny It concedes all the rights of naturalized citizens but if the Fenians attempt to make war on the Queen of England in her own country, they must be treated as subjects guilty of treason

It even accepts the rule that naturalized American citizens may visit England with impunity after plotting against the Queen in America provided they come peaceably

The *Post* says The passage of this bill has delayed the settlement of the question of the rights of naturalized citizens European powers may justly resent such action even while making allowance for the exigency of the approaching Presidential election

The mail steamer from South America has arrived Intelligence is received from Brazilian sources that the President of Paraguay, General Lopez, had sent a proposition for peace to the allied powers through the mediation of the American Minister Washburn

Dispatches had reached Rio Janeiro from Buenos Ayres via Montevideo announcing that Senor Domingo F Sarmiento, formerly Embassador to the United States, had been elected President of the Argentine Confederation

DUBLIN, July 29 —The Marquise of Abercorne is to be made Duke

PARIS, July 29 —In the case of the United States against Arman, judgment was to day rendered against the plaintiff The court says the evidence advanced is insufficient to prove that the defendants had contracted to build war vessels for the Southern Confederacy

ST PETERSBURG, July 29 —The Emperor Alexander has called a conference of thirteen members to meet on the 10th of August at St Petersburg for the purpose of arranging the details of an international convention, pledging all the great powers to abandon the use of explosive bullets in time of war.

OUR SAN FRANCISCO DISPATCH

SAN FRANCISCO, July 30 —The *Golden Age* sailed for Panama this morning, carrying two hundred and forty passengers and $847,634 in treasure.

Some time during last night the wholesale store of Kruze and Luler, corner of Front and Richmond streets, was entered by burglars and robbed of $1,000 and other articles of value. The burglars cut a hole through a Tilton & McFarland safe in order to get at the money.

Yesterday afternoon, while some men at the Plaza were tamping a blast, it exploded and blew two of them into the air They are severely, and and it is thought, fatally injured.

A parcel of brutal boys set upon a Chinaman on Market street wharf last evening with clubs and beat him until he fell insensible

Mr John F Jordan, a teacher in the Washington street Grammar School, was, yesterday evening, attacked by some of his pupils, knocked down with stones and severely beaten, because he had detained some unruly scholars after school

The meeting held last night at Congress Hall under the auspices of the Grant Invincibles, was largely attended

The 10th Ward Grant and Colfax club also had an enthusiastic meeting last night

The Democracy held a meeting at Amory Hall and were addressed by Judge Hardy and Caxton

It is stated that the policemen of this city have been assessed $10 per man for the month of August by the Democratic County Committee towards defraying the expenses of the coming election

The body of an unknown drowned man washed ashore at Point San Rosa last night.

The ship *Dreadnought* lost two sailors Charles Anderson and John Boyle overboard on her passage

The U S steamer *Pensacola* arrived this morning from Victoria She brings the intelligence that the *Suwanee* is a total wreck, that she is broke in two and that two light draught vessels were engaged in wrecking her The *Pensacola* brought down about eighty of the crew of the wrecked vessel

Private advices report the safe arrival at Onalaska of the sloop *Jubez Howes*, after a passage of 30 days hence This craft is only 11 tons register, and her trip is far more remarkable than the pleasure excursion across the Atlantic, about which so much has been said of late

Considerable car material arrived by the New York ships last evening and this morning including over 1000 bars railroad iron, 1,000 car wheels, etc

The sales at the stock board this morning were unusually light and confined to about a dozen descriptions

CONTRERAS, July 30 —A fire broke out in this place this morning about 6 o'clock in the business street, opposite Campbell's Tavern It destroyed about fifty buildings including about twenty stores The fire destroyed all the buildings on the south side of the track except the school house, and and burned all the buildings nearly to the depot on the north side The loss is not ascertained but it is very heavy, with no insurance to speak of

New Westminster July 29 The Grouse Creek Flume Company washed up on the 25th two hundred ounces at a loss, good prospects for the future Good pay has been struck on the head waters of Dease Creek, a branch of Peace River Miners are making fifty dollars a day to the hand

The San Francisco Fire and Insurance Companies received in June last $194 974 The city railroad of that city received in that month $86 942 but both these amounts represent currency

The *Sentinel* says Grant's initials, H U S G have now a very popular signification They mean Horatio U S Skedaddle G[illegible]! We have no doubt Horatio will do so

PUSHING AHEAD —Virginia, Nevada, papers which are now received in San Francisco on the night of the same day they are published inform us that the construction train of the Central Pacific Railroad was yesterday running to Coffman's Station 11 miles east of the Big Bend of the Truckee and about 201 miles east of Sacramento, or say 325 miles from San Francisco by boat and rail A comparatively level country has been struck at this point, and the track will be extended at the rate of two or three miles a day At Big Bend the elevation of the plateau is 4 219 feet above the sea and for a distance of 461 miles further to Salt Lake, the utmost elevation is 5 [illegible] feet, a difference of only 1 131 feet For over 200 miles however the difference in elevation is scarcely more than 100 or 200 feet While the Central Pacific has thus entered on easier ground than it has yet worked over, and has a heavy grading force far in advance of its track layers the Union Pacific has encountered heavy hill work and is making slower progress than of old, though still doing bravely. It is running trains 670 miles west of Omaha, and has laid track within 26 miles of the North Platte a point 1 17[illegible] miles east of San Francisco The gap to be railed over between the inner termini of the two roads is about [illegible] miles *Bulletin*

There has been an entire change, says the *[illegible]*, of the Faculty of the Willamette University by the late elections Rev Dr Rounds ([illegible] arrived from the East) is chosen President, O S Frambes Mrs Frambes, Mr Dierdorff and Mrs Grubbs are the new professors Mrs Grubbs is the only one of the old faculty retained

Correction

In my brief article in yesterday's issue under the head of "Political Christianity," an error occurred in the third paragraph which should be corrected It should read

There is one fact, however, which *some* men cannot forget Of the one hundred thousand Methodist soldiers who fought in the recent war, *not one* of them was found in the *rebel* ranks Whether Republicans or Democrats they were all on the side of the Union and enlisted under the Stars and Stripes Had we furnished forty or fifty regiments for the *rebel* army, we should not *now* be assailed by such creatures as the editor of the *Herald*, &c H C B

PATENT FIRE EXTINGUISHER.—The following communication from Eugene City, dated July 28, came to hand yesterday:

EDITOR OREGONIAN:—Much has been said about a patent Fire Extinguisher, that it is good, acts like a charm, should be in every house, but what is it? Does it run by steam or horse power? Is it put on wheels or carried by hand? Is it made of iron, copper, tin or wood? How big is it? In short, how does it look? And last of all, what does it cost? Our people want something in that line here, but want to know something of the above particulars to get an idea of the machine. By answering this in the daily you will oblige Yours,
ERASMUS.

In reply to Erasmus we will give him the answer as far as we are able. The machine spoken of is an invention for extinguishing fires, and looks more like a iron cylinder from 24 to 30 inches in height by about 8 inches in diameter, the lower end flat, the upper end convex, than anything else we think of just now. It does not run by either steam or horse power, but by its own force. It is carried upon the back of the person using it like a knapsack. It is made of sheet iron, the medium size being strong enough to bear a pressure of 11 or tons. Its cost according to size is $60 for small size, $65 for medium and $80 for large. The different sizes contain eight, ten and 12 gallons respectively. It is filled with water and a neutralizer of a certain ingredient. A tube, one inch and a half in diameter is put through an aperture at the top and fastened with a screw and cap. This tube has a valve at the lower end, and contains another ingredient which uniting with that in the water rapidly generates carbonic acid gas, which is forced out through a hose and directed upon the fire. The hose projects from the lower end of the vessel and is opened by turning a small screw. The machine is very simple in its construction and needs no explanation beyond those furnished with it to enable any one to work it. The principle involved is the removal of the oxygen by the denser carbonic acid gas, in which case the fire is extinguished, that element being supported by the oxygen.

SANITARY.—In all well regulated cities much attention is paid to those measures which tend to promote and secure the health of the people, and especially in times of danger from epidemic diseases, strict sanitary regulations ought to be rigidly enforced. Hitherto this branch of our city government has been somewhat neglected, but we are glad to note the fact that the initiatory steps have been taken to inaugurate a system for protecting, as much as possible, the health of our people. We see by the *Bulletin* of the 22d inst., that the City Council are in correspondence with the Board of Health of San Francisco, in regard to the Sanitary system of that city. The *Bulletin* says: "The citizens and municipal Council of Portland, Oregon, are contemplating the organization of a Board of Health in their city. They have seen enough in San Francisco papers of the working of ours to satisfy them that such a bureau is beneficial, even where it only records the number of deaths and takes cognizance of nuisances. A letter has been received from the Council by our Health Officer asking for full details of the method of proceeding and of the form of book keeping. The more thought is given to vital statistics and to sanitary supervision the more importance will be attached to the labors of the Board of Health and the duties of the Health Officer and his assistant." We trust this investigation will lead to the adoption of a plan which will afford full security against any infectious or contagious disease, should they be unfortunately introduced among us.

ARRESTED.—Mr. Kelly, proprietor of the saw mill on the other side of the river, was arrested day before yesterday on a complaint filed in Justice B. Trainor's court by one Owens. The complaint charges Mr. Kelly with cruelty to animals by driving a yoke of cattle faster than the law allows. We saw the veritable team on the streets yesterday—a yoke of small oxen attached to a double seated spring carriage—but if they had been very cruelly treated they did not show it. Upon the trial of the action commenced as above stated, some three or four witnesses were examined on behalf of the State, after which Mr. Kelly asked the court to step out and look at the oxen, which the court declined doing. Then Mr. K offered to bring the oxen into court, which evidence was denied, and the Justice proceeded to adjudge Mr. Kelly guilty as charged in the complaint, and mulct him in the sum of five dollars and costs. Mr. Kelly failed to see the law as the Justice did, and concluded he would go to prison, and got into his carriage and started for the dungeon under the Court House, but when he came over the river he met Judge Page, who prevailed upon him to accept an opportunity to remain at liberty until such time as the matter can be reviewed.

SUIT AGAINST THE CITY.—L. M. Starr has sued the city of Portland for the recovery of block 172, (excepting two half lots) commonly known as Market Square, situate in front of the Central School house block, and for $1,000 damages for wrongfully withholding the possession thereof from plaintiff. As to the title to this block we are not expressing an opinion, but we are inclined to believe that the cost of defending its title has already exceeded all the advantage the city has ever derived from its ownership. In the action above alluded to, plaintiff claims under title from D. H. Lownsdale to Stout, from Stout to Leland, and from Leland to Plaintiff. The city claims under a dedication alleged to have been made by Lownsdale prior to the deed to Stout. At its last meeting, the Council determined to defend the action, and authorized the City Attorney, W. F. Trimble, Esq., to take the necessary steps thereto. The attorneys for the plaintiff are Messrs. Mitchell, Dolph & Smith.

FUTURITY OF THE CITY.—Owing to her natural advantages, it is not too sanguine to hope that Portland will, in the future, as she has heretofore, be the second city on the Pacific coast. With the Willamette and Columbia rivers as her channel of commerce and the prospective railroads up the valley, there is a large scope of fertile country to back up the commercial enterprise and energy of her capitalists. Judicious management of the resources within her reach will give her in all coming time the lead of all places north of San Francisco. When the population of the Willamette Valley amounts to 250,000, Portland will at least contain 45,000, and we have no doubt that the time is nearer than most of those people in California and the East, who have not hitherto given Portland her due, suppose. Though yet in her infancy, she does an amount of business not surpassed by any city of her size in the United States. Every branch of commerce and manufacture is, to some extent, represented in our midst, and when our resources shall become more fully developed we may become a great manufacturing as well as commercial metropolis.

JAIL DELIVERY IN MONTANA.—Intelligence reaches us that on the afternoon of the 9th inst., three prisoners, under sentence of death, took possession of the jail in Deer Lodge City by overpowering the jailor and confining him in the darkest cell. Fearing to show themselves in open day the three determined to remain in the jail until night, when they would commence their flight. During the afternoon, two men, friends of the jailor, stepped in, and being confronted with revolvers, permitted themselves to be confined with their unfortunate friend. Night coming on, they made off and were many miles away when their flight was discovered the next afternoon. Rewards have been offered for the arrest of the three murderers.

IN THE CIRCUIT COURT—UPTON JUDGE.—The following were the proceedings yesterday:

B. F. Smith vs. Abernethy, Clark & Co., judgment on verdict of jury in favor of plaintiff for $670. Eagan and Thayer for plaintiff, Strong for defendant.

Alice Hartness vs. Thos. Hartness, decree granting divorce made. Hamilton and Hewett for plaintiff, Mitchell, Dolph & Smith for defendant.

State of Oregon, ex relatione, I. R. Moores vs. J. Gaston, motion to make answer more specific argued and overruled. Mitchell, Dolph & Smith for plaintiff, Hill & Mulkey for defendant.

FENCED IN.—We learn that the roads leading to, and from the Iron Works at Oswego have been fenced up by the proprietor of the town. This action has put an end to the work of the Iron Company for the time being. We predict that action will be taken very soon which will result in putting money into the pockets of somebody, lawyers at least, but it is a disadvantage to the country that these parties cannot amicably adjust their difficulties without hindering the progress of important interests by the "laws delay."

MAYHEM.—Day before yesterday a man named Maddey and J. J. Smith got into a fight at Oswego, resulting in the loss of half of Smith's left ear, which was bitten off by Maddey. Smith came to Portland to have Maddey arrested, but was informed that the jurisdiction of Multnomah county would not reach him. Whether he has yet been arrested we are not informed.

MANIFEST.—The following has been furnished us as the manifest of the bark *Whistler*, Capt. Fuller, which sails this morning for Sidney, Australia. She carries 1,000 cases canned fresh Salmon, 14,374 feet lumber, 34 half barrels dried apples, 152 bbls. salmon, 4,742 graks flour, 85,837 lbs wheat. Valuation of cargo, $30,000.

EXAMINATION OF TEACHERS.—There will be an examination of persons desiring certificates to teach school in the county of Multnomah during the ensuing quarter, at the Central schoolhouse in Portland, on Saturday August first. All those desiring certificates should be in attendance.

SALMON OIL.—We learn that some of our tanners have been experimenting with salmon oil, and that they have found it of great value in their business. If this is true it will prove quite a saving item to those engaged in our fisheries. It is said the oil would pay one fourth of the expenses incident to obtaining the fish.

WILLAMETTE FREIGHTS.—The following are the receipts from the Upper Willamette yesterday: 254 gunnies wheat, 30 hlf bbls apples, 30 cases lard, 25 boxes apples, 58 bales wool, 13 bbls oil, 18 sacks leather, 4 cases hides, 1 op iron, 2 pkgs castings, 17 boxes eggs, 1 bundle skins.

NEW BOILERS.—The Willamette Iron Works have a contract to furnish two large boilers for a saw mill down the Columbia river. The foundry business in Portland is becoming one of the most extensive interests in which our people are engaged.

TO BE SUED.—The Common Council at its last meeting, authorized the city to institute legal proceedings against D. Jacobi, late City Marshal, to recover property alleged to be in his possession belonging to the city.

CHANGED HANDS.—We learn that W. J. Bradbury has disposed of his three fourths interest in the Standard Mills at Milwaukie to E. M. Burton, Esq., of this city and Capt. Kellogg.

NEARLY WELL.—Col. T. R. Cornelius of Washington county is in town. He has been longer ill, but has recovered, and we hope will be all right again very soon.

CORRECTION.—White's building, at the corner of Front and Morrison streets, is seventy five feet wide, instead of fifty, as we said in yesterday's paper.

TO REAPPEAR.—The publication of the *Oregon Pioneer* will be resumed this week by one of the former proprietors, Mr. Landenburger.

FAILED TO APPEAR.—The *Evening Bulletin* failed to appear yesterday evening. We do not know for what length of time the proprietor has suspended its publication.

TO SAIL.—The steamer *Continental* will sail for San Francisco at 7 P. M. to-morrow.

EVERYBODY seems to provide himself with a Fourth of July Hat since this hot weather has set in, which keeps Meussdorffer very busy making them.

THE BROADWAY STYLES OF BOYS' HATS received per last steamer, and for sale by J. A. Daly, 103 Front street.

TO ALL WHOM IT MAY CONCERN.
PORTLAND, Og'n, July 28, 1868

As there are a great many people sick and dying of a disease called Cholera Morbus, I would call attention to the Chinese Doctor Jim. Having eaten green fruit I was taken very bad with the above disease and lay insensible for four hours, when Dr. Jim was called, and in 20 minutes after he gave me the first dose of medicine I was easy and asleep. I believe that there is no other Doctor in the Pacific coast that could have relieved me as quick as Dr Jim did.

I am now making amongst numerous other styles of ARTIFICIAL TEETH On Improved Vulcanite Plates of Dr G. W. Cool's Patent, patented Dec. 5, 18 , the improvement of which consists in lining the entire concave surface with thin gold, it not only makes the plate double as strong and cleaner than the common Vulcanite Plate. It also can be made considerably thinner and lighter, whereas the price is but little above that for common plates. Call and and see specimens.
N. B.—Dentists wishing to secure the office right for Dr. G. W. Cool's Improved Vulcanite Plates can have it made out to them by applying to this office.

G. VENARD.
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER NOS 625 AND 627 FRONT ST

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.
The undersigned who has always enjoyed public confidence for the excellent quality of his Coffee neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior a relatively higher price excites the cupidity of some manufacturers and every day he sees increasing the number of those who by counterfeit or imitation of his mark seek to deceive the public palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial but only adds to the favorable opinion of the consumers the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.
BEWARE OF COUNTERFEITS.

HOSTETTER'S
CELEBRATED STOMACH BITTERS!
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.
PROTECTIVE PROPERTIES.
Prevents Fever and Ague and Bilious Remittent Fevers, Fortifies the System against Miasma and the evil effects of unwholesome water, invigorates the organs of digestion and the bowels,
Steadies the Nerves and tends to Prolong Life.
REMEDIAL PROPERTIES.
Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or
PRODUCED BY SPECIAL CAUSES.

NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant; but is a combination of the extracts of rare balsamic herbs and plants with the purest and mildest of all diffusive stimulants.
The weak stomach is rapidly invigorated and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.
Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.
As a Genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases, it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.
Last but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day.

The Paraguayan Amazons

[illegible]

Lieutenant Margaret Ferreira and Capt. Anita [illegible] are the female officers in command of the pass of the river Tebicuari, where a very respectable [illegible] of the [illegible] ... [illegible] ... [illegible] quite [illegible] age of the river by the [illegible] this is the teror of the allies that [illegible] down in Paraguay, and every well-informed person in military matters knows that they are correct.

[illegible] with [illegible] ... army, [illegible] camped midway between [illegible] river and a small island from [illegible] Villa Rica the right wing of the army under the command of the mother of Capt. Herrero, has applied [illegible] lightly to the [illegible] the invaders [illegible] and they effect a crossing [illegible] Mrs. [illegible] Margaret [illegible] girls. Relays of girls and women keep constantly arriving at the headquarters of the feminine Commander in Chief. From what we gather from letters and statements, it would seem that the male portion of the Paraguayan army is very much reduced, and are occupied in defending the fortress of Humaita, the positions near Timbo, the encampment at Villa Rica, and the fortifications at Lambare. The guerrilla portion of the campaign, or what is termed here the "guerra de recursos," is intrusted to the women of Paraguay; and authentic data have been received that the troops to the north, near the Tranquera Loreto, are exclusively composed of women.

As to the exact number of women under arms in Paraguay at present it is impossible to say, owing to the varied and conflicting statements, but for years past a great portion of the heavy work attending on camp life has been performed by the unfortunate daughters of that once lovely country! Even in the trenches around Humaita the weak arm of woman has shoveled out the earth to make a grave for the allied invaders; female chasques have gone from point to point over the country with despatches; the steamers and vessels in the port of Ascencion have been alternately discharged and laden by the trembling hands of the women in the capital. Everything of worth and value that these poor women possessed has been snatched from them to assist in the defence of their country! They have toiled in the field for the last three years; they have sowed, tilled and harvested the crops; they have made clothes for the soldiers from fibres of plants; they have maintained the hospitals, cared for the wounded and sick; they have supplied the army, and now, with Satanic power, they are dragged to the front, and placed in the breach to fight the whole allied army!

We, for our part, demand of the foreign Ministers to send commissioners up to Paraguay to investigate the real condition of affairs and report thereon. If, as the news goes, the Allies, in attempting to cross the Tebicuari, have to fight the girls, then the honor of Europe is at stake in at once stopping this horrible war. The Allies themselves must see the utter impossibility of carrying on hostilities upon such terms. Supposing that it were possible the allied army could afford a regiment or a division so mercenary and so base as to fight against the poor Paraguayan women, and if in the battle the Allies were so unfortunate as to win the day, not all the wealth of Matto Grosso, not all the trophies of Paraguay, would recompense for the tarnished honor of such an ill-starred victory.

The Hot Weather.

[From the New York Tribune, July 7.]

The heated term through which we are now passing is certainly a most remarkable and uncomfortable one. The following are the details of the atmosphere of New York for two days:

Hour.	Ther.	Bar.	Wind.	Hour.	Ther.	Bar.	Wind.
July 4—7	78°	30.19	S. W.	July 5—7	81°	30.12	S. W.
12	95°	30.18	S. W.	12	91°	30.10	S. W.
3	90°	30.16	S. W. by S.	3	92°	30.08	S. W.
6	82°	30.15	S. W. by W.	6	85°	30.07	N. W.
9	85°	30.14	S. W.	9	82°	30.10	N. E.
11	82°	30.13	S. W.	11	82°	30.10	N. E.

We have experienced a number of scorching days in New York, but very few so utterly unrelieved by sweating discomfort and breathless misery as Sunday. During the entire day the number of pedestrians in the streets was remarkably small, merely on account of the intense heat. Those unfortunate parties who were compelled to defy the rays of the scorching sun hugged the shady side of the street as fondly as bridegrooms achieved. Cabbage leaves and wet rags were eagerly sought for, as covers for the tortured craniums; the stock of ice ran low (mainly, it was thought, on account of the extraordinary demand instituted by the Democratic Convention) but all that could be had was guzzled in various forms, during the day, and the number of cases of sunstroke was very large. It was hardly hot enough to induce an agreement with the negro philosopher in the statement that the hens laid their eggs ready boiled, but the temperature was such as to warrant almost any belief. Many of the customary summer resorts in the neighborhood were deserted on account of the heat to be endured in reaching them. The wind that did blow across the island was hot and feverish, as if from the mouth of a furnace. The green leaves withered on the trees in many places, and dropped scorched and blistered to the ground. The majority of our population fairly gasped for breath from sunrise till midnight. The strangers in the city were at a loss to make a comfortable disposition of their time. They drank ice water and hung around the doors of their hotels and calmly perspired. There were many from New Orleans and similarly tropical climates, but they all agreed that they had never felt New York heat equaled in their many homes. Indeed it was a day to be remembered for years to come.

General Schenck.—The Cleveland *Herald's* Washington correspondence has the following:

Schenck is the incarnation of force, a hero for Carlyle, with a body, head and face representative of his unflinching will and steadiness. His head is square, his body is square, he stands squarely, and is what we familiarly call a "square man" in character. The cube is the symbol of him. There is a dent in his chin like the mark of a hammer in a rock. His neck is in keeping with his large decisive jaws. Some time ago I saw a member go up to him to introduce a friend. Schenck was writing with that intense application which is only like a bulldog's.

"Schenck!" said his colleague, "here! One moment!"

Schenck wrote with his head bulling into his work, and all eyes "into" it, his life concentrated in it.

Schenck? Only a moment! Come!" He struck Schenck, pulled his coat collar, pushed him with his knuckles. Schenck wrote on like grim death. If a man's will has any power over his life, Schenck would have finished that work with a bullet in his brain.

Not till every word of his undertaking was done did the General turn round, and then unconscious that anybody had molested him. If Hugo says, General Schenck has more than the merely preserving talent that we accord him.

Singular Case.—A dispatch from Des Moines, Iowa, June 29th, says:

Governor Morrill to-day pardoned Cathrine McArdle, who was sent from Jackson county, in this State, for life. She confessed to be the murderess of her husband and was sentenced to be hanged, but was commuted by Governor Stone. It was afterward found that she was entirely innocent of the crime, and that her son was the guilty person. To save him from the gallows she claimed to be the murderess, but is now released after four years of prison life.

The Palestine of the Israelites.—At the recent laying of the corner stone of a Jewish Temple at Cincinnati, the Rabbi Lilienthal delivered a discourse denying that Israelites of the present age dream any longer about a restoration to Palestine and a Messiah crowned with a diadem of earthly power and glory. "America," he said, "is our Palestine; here is our Zion and Jerusalem. Washington and the signers of the glorious Declaration of Independence, of universal human right, liberty, and happiness, are our Messiah, and the time when their doctrines will be recognized and carried into effect all over the world, is the time so hopefully foretold by our great prophets. When men will live together united in brotherly love, peace, justice, and mutual benevolence, then the Messiah has come indeed, and the spirit of the Lord will have been revealed to all his creatures." This is the same Rabbi who preached some time ago in a Christian church.

Take AYER'S PILLS for all the purposes of a purgative, for Constipation, Indigestion, Headache and Liver Complaint. By universal accord, they are the best of all purgatives for family use.

SOOTHING AND BRACING.—There is no preparation in existence which has such a soothing effect in cases of nervous excitement as

DR. HOSTETTER'S STOMACH BITTERS.

Although the fame of this renowned invigorant rests mainly on its astonishing cures of Dyspepsia, Liver Complaint and intestinal disorders, it is equally efficacious in nervous complaints. Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and lightens the depressed mental powers as well as strengthens the body, and its use is never followed by any unpleasant reaction. Sold by all Druggists and dealers everywhere.

READ THE FOLLOWING:

PORTLAND, OREGON, July 14, 1868.

P. D. Moore, Esq., Sir:—The undersigned having witnessed the exhibition in this city yesterday of your "Extinguisher," or Portable Self-Acting Fire Engine, would state that the first experiment of a fire kindled outside of the building, erected in the rear of the Central Public School House, made by using shavings, staves, tar, &c., was effectually extinguished with one machine in a short time; that the second experiment of a fire in the inside of the building, made by using shavings, kerosene, staves and dry stuff, was also promptly extinguished by the use of one machine in less than three minutes. The third experiment was left to the control of the Fire Department, under the direction of the Chief Engineer, and the building was fired inside and outside, and when the fire was well under way the Chief Engineer gave the order to "extinguish," and the fire was effectually put out in about six minutes. A brisk breeze was blowing at the time, and we pronounce the experiment successful and satisfactory. We are satisfied that the "EXTINGUISHER" is very valuable for what it claims, namely, the prompt extinguishment of fires in their earlier stages, and being portable, self-acting and always ready at a moment's notice, would, if generally introduced, save much valuable property from destruction, and we regard it as a valuable auxiliary to the Fire Department. They are indispensable in those localities where no steam or other fire engine is in use, and we recommend their use generally in dwellings, stores, hotels, and public buildings.

Very respectfully,
W. H. WEED,
Chief Engineer Portland Fire Department.

ON BOARD THE "ALASKA," Portland, July 15, 1868.

P. D. Moore, Esq.—Sir: I have just returned from witnessing the operations of your "Extinguisher," or Portable Self-Acting Fire Engine, and confess I was both surprised and highly pleased with its success.

I have no doubt whatever of its efficiency and adaptation to putting out fires in their earlier stages, however combustible the materials may be that are burning. Its action on a flame is really magical. They should be in every house of any value, or which contains valuable property, as well as on board of vessels. No one can estimate the additional security they give to both life and property. You will please furnish me two of the No. 2 size immediately, for the *Alaska*, as I sail for Honolulu to-morrow morning. Very respectfully,

R. CALHOUN,
Master of schooner "Alaska."

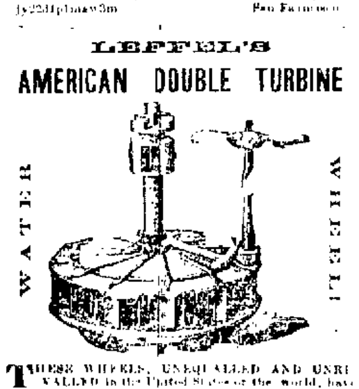
LEFFEL'S

AMERICAN DOUBLE TURBINE



THESE WHEELS, UNEQUALLED AND UNRIVALLED in the United States or the world, have been fully tested on this coast, many being in use at this date, driving all kinds of machinery, Saw Mills, Flour Mills, Quartz Mills, Woolen Factories, &c., &c.

CAUTION.

To all whom it may concern: I hereby give notice that the so-called "Shipley's Pacific Turbine Water Wheel" is a direct infringement and copy of the "James Leffel's American Double Turbine Water Wheel," and its manufacture and use is hereby prohibited. Any person or persons making, using, constructing or vending said Water Wheel, make themselves liable to heavy damages and penalties. Parties interested will take notice, for I shall prosecute said infringements to the utmost extent of the law.

That all may know I mean what I say, and am not playing "*bluff*," I give the following extract from a legal opinion on the subject, from one of the most eminent Patent Attorneys in the United States:

WASHINGTON, D. C., April 17, 1868.

"Mr. A. Myers: In accordance with your request we have examined the patents of Shipley on Water Wheels, and are clearly of the opinion that they both infringe the Leffel patents. In both of Shipley's Wheels he uses the upper and lower tiers of buckets precisely as Leffel does, and in this he clearly infringes. The fact that Shipley has applied another series of buckets in addition to those used by Leffel, does not relieve him from the consequences of infringement at all. He has no right to use those two tiers of buckets, whether alone or with a third or any other number of tiers added. It is a clear infringement. Respectfully yours,

DODGE & MUNN.

I hereby give notice that I will prosecute every infringement on our Patents, whether it is the maker, user, buyer or seller. Every infringement, whether our claims are used in whole or in part, will be prosecuted.

A. MYERS.

SWAIN'S PATENT

TURBINE WATER WHEELS!

A. M. SWAIN, AGENT,

North Chelmsford, Mass.

For further information, address—

J. D. SWAIN, Agent,
Butteville, Oregon.

THESE WHEELS ARE MADE OF ALL SIZES, are adapted to all Leads, high and low, and are warranted superior to anything ever yet invented for the purpose. It received a medal at the great Mechanics' Fair at Lowell, Mass., as eminently adapted to the purpose which it serves.

The following testimonials will be read with interest by all who have occasion to use water:

LOS GATOS, SANTA CLARA CO., CALIFORNIA,
December 16, 1867.

A. M. Swain—Dear Sir,—The following tests have been made by us at the dates given. Our overshot wheels were iron run, iron braced, iron shafts, and as good wheels as we have ever seen. Buckets 7ft. long, run 12 inches deep and 20ft. in diameter.

They would not furnish sufficient power to run two runs of machinery on one wheel when buckets were filled with water, hence the tests, 1 run on each overshot wheel. All our tests were made by measuring the depth of water in a flume and the distances floating stick would travel in it per minute. All the flour made is our XXX brand using over 5 bushels of wheat per bbl.

Feby. 1st, 1867.—Water 15 inches deep in flume 4ft. wide, running 168ft. per minute, drives one run on overshot wheel and all mill machinery to make 2 bbls flour per hour—734 cubic feet per minute.

Feby. 7th.—Water 17 inches deep, 4ft. wide, running 180ft. per minute, drives 2 runs of stone, on both overshots, all mill machinery to make 5 bbls. flour per hour—1020 cubic feet used.

Nov 15th, 1866.—Water 9 inches deep, 4ft. wide, running 156ft. per minute, drives 1 run on Stevenson Jonval Turbines under 62ft. head, to make 3 bbls. flour per hour, and all mill machinery, using 468 cubic feet per minute.

Aug. 15th, 1867.—Water 8 inches deep, 4ft. wide, running 132ft. per minute, drives 1 run on Swain wheel under 56ft. head, and all mill machinery to make 4½ bbls. of flour per hour, using 352 cubic feet of water per minute.

Aug. 20th.—Water 6¾ inches deep, 4ft. wide, running 152ft. per minute, drives 1 run on Swain wheel under 56ft. head and all mill machinery, except wheat cleaners, to make 3 bbls. flour per hour, making 284 cubic feet of water used per minute.

Nov. 2d.—Water 9½ inches deep, 4ft. wide, running 136ft. per minute, drives 2 runs on Swain wheel under 56ft. head, and all mill machinery, except wheat cleaners, making 4 bbls. flour per hour on one stone, and grinding one ton of barley per hour on the other runs, grinding 11,724 lbs of barley in a straight run of less than six hours—using 431 cubic feet of water per minute.

Sept. 27th.—Water 7 inches deep, 4ft. wide, running 132ft. per minute, drives 1 run on Leffel wheel under 62ft. head, to make 3 bbls. flour per hour, and all mill machinery, except wheat cleaners, making 308 cubic feet of water used.

Your wheel (12 inch) will run 775 to 800 turns per minute, and will send a stone to 250 easily, and even faster if we dare. Truly yours,

ROGERS & HARRISON.

LOS GATOS FLOUR MILLS,
SANTA CLARA CO., CALIFORNIA,
April 30th, 1868.

A. M. Swain—Dear Sir: We have now been using your 12 inch wheel, with bucket 1¼ inches deep, for over one year, in our flour mill, under 55 feet head. We have made very careful tests with overshot wheels, and find your wheel fully equals the best overshot, even with partial gate, and excels it with full gate. It will run our mill machinery and run up to its full motion with the gate one fifth open, and use water with good economy. We have tested it beside the Tyler, Stevenson and Leffel turbines, drawing water from the same pipe, and find it superior to them in simplicity of gate fixtures, steady power and great economy of water. After twenty years experience in water wheels, and the expenditure of thousands of dollars on different wheels, we would not take any other wheel as a gift, if we could get the Swain perfect built turbine by paying for it at the highest rates. We consider money paid for perfect work on a water wheel that will last for years, for a manufacturer, the best possible investment.

We have great trouble with the Leffel wheel gate in leaking and breaking, and have broke the gate several times in the six months we have run it, while your gate has never failed to close tight, and has never bothered us for a moment. Truly yours,

27m1 ROGERS & HARRISON.

PACIFIC TURBINE WATER WHEEL.

THESE WHEELS EXCEL ANY OTHER WHEEL in use, and are not an infringement on the Leffel American Turbine, but excel it in every particular.

CAUTION.

To all whom it may concern.—One A. Myers is publishing and circulating a statement that my wheel is an infringement on the Leffel wheel and he will "prosecute said infringement to the utmost extent of the law." His statements are not worth a denial. His game is "Bluff," which, if he would only take the case to Court, would soon be played out. Don't believe him!

I would be glad to get a case into the United States Court and get a decision. That would forever stop the mouth of Myers and his mis-representations. The legal opinions of more reputable lawyers than Dodge & Munn and A. Myers have pronounced my patents no infringement on the American Turbine. H. W. SHIPLEY.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES!

Dr. Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases of years standing, and Ulcerous Sores, successfully treated.

Horrible Diseases.

How many thousands of persons, of both sexes, are there who are suffering from mercurial [illegible], or from the effects of secret indulgence, or [illegible] absorbed into the system. Look at the pallid, emaciated and disfigured faces and [illegible] broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. [illegible] Thousands suffer until death [illegible]. Let parents, guardians, friends, attend to those who are suffering with any of these horrible diseases, and make sure that they are cared for. [illegible] before it be too late. Send them to a reliable [illegible] physician who has made [illegible] practice [illegible] a specialty, and who feels certain to cure them in most ordinary cases without mercury or any injurious [illegible]. [illegible] to those who are afflicted, or to [illegible] who are interested in the welfare of their friends, to [illegible] of the many pretended doctors who [illegible] skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. [illegible] of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves, [illegible] uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating the disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was injured or is complainant either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these horrible diseases, should not forget the sacred responsibility resting upon them not delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who with bogus certificates dupe the unwary. Some of the self-styled Doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and become too lazy to work at their trades. Some are incompetent shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets, for as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.

HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months to which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It cannot do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. B. MOORE, NATHANIEL BELL,
A. L. WALLACE, G. R. WARD,
Mrs. MONTGOMERY, JOHN M. HOLLOWAY,
W. D. PORTER, ROBT. RAMSEY,
And others in that vicinity.

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

DR. J. C. YOUNG,

Medical and Surgical

INSTITUTE.

⁂ *CONSULTATION, IN ALL CASES, FREE.*

⁂ *CURES GUARANTEED, OR NO PAY REQUIRED.*

⁂ *IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED.*

The above rules, established by Dr. J. C. Young in 1850, and which have done so much to secure the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.

There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity give assurance of proper and delicate treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to the invariable success that has marked the career of the Institute in the seventeen years of its existence.

It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call especial attention to that terrible scourge,

SEMINAL WEAKNESS,

That is sapping with its insidiousness the very life of its victims; in the treatment and cure of which the Institute has earned so enviable a reputation.

READ! READ

I am aware that by dwelling upon so unin[illegible] a subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant may asperse my motive; but the desire to point out to those who suffer, languish and decay, the true cause of their affliction, is too great an incentive to be forced into abeyance. How extended the terrible disease of Seminal Weakness is, no one but the practical specialist who devotes his time to its treatment can tell; but its presence can be detected by the most inexperienced by noting the following symptoms: Weakness of the back and limbs; [illegible] feelings, loss of muscular power; nervousness; [illegible] cold feet or hands, accompanied by hot head; [illegible] of consumption; short breath; flushings of the face; aversion to society; confusion of the mind; loss of memory; nightly emissions; colorless; slight discharges upon the least excitement; trembling; palpitation of the heart; irregular appetite; variable temper, etc.

YOUNG MAN, if you experience any of the [illegible] symptoms enumerated above, pause to consider. The present is the golden moment in which you may [illegible] health and happiness. You may feel strong now, but if you have ever practiced the vice of self-abuse even to the slightest degree, you have the seeds of weakness in your system, and their undermining influence will, sooner or later, dash the fair edifice of your strength to the ground, leaving you a helpless, abject being. It is not a disease that declares itself at once. Therein lies its greatest danger; for while the patient is being treated for some affection of the Heart, Lungs, Brain, or Digestive functions, he sinks into a general debility that soon adds him to the list of the victims of the terrible disorder, Seminal Weakness.

See in the bent form and languishing steps, the poor victim of the fascinating vice! Mark the course of the destructive complaint in the hollow cheek and dull eye!

Drowsiness is one of the premonitory symptoms. At first it is easily shaken off, but it grows eventually into a great disinclination to pursue his regular business. The mind becomes apprehensive, and restless nights [illegible] days of depression.

It is the nature of the complaint to [illegible] changes that leave the poor victim but little hope of recovery. In a single instant it may wither your fond hopes and blast your honest aspirations.

Marriage is sought by a natural impulse as a hope of relief. This is an error of the first magnitude, for the system, unprepared for the exigencies of the occasion, suddenly fails, and he finds himself in a deplorable [illegible] from which there is but the slightest hope of recovery. Or if the marriage should result in offspring, they are puny, distorted, decrepid, and degenerate. This is a [illegible] ble to both sexes, whether married or single, and to all times of life.

Do not delay if you feel any of the symptoms of the terrible complaint, or if your acts have been such as to lead to them, but by instant application secure to yourself the only hope of health and happiness. The Doctor uses no mercury or other deleterious drugs—cures, when taken in time, always guaranteed, and full and proper vigor restored.

The afflicted are assured of every confidence.

PERSONS AFFLICTED WITH VENEREAL.

During the seventeen years since the establishment of the Institute, the number of cases of Venereal that have been treated, show a record unsurpassed by any hospital in the world, and the success that has invariably marked the course of treatment

Without Mercury or other Deleterious Drugs,

Shows conclusively the use of them to be not only uncalled for, but actually dangerous, for it is a thoroughly established medical principle that those poisonous drugs, by entering the blood, ruin the constitution and [illegible] life.

The Doctor effects a cure in recent cases, in a few days, and finds no difficulty in curing those of long duration, without submitting the patient to such treatment as will draw upon him the slightest suspicion, or oblige him to neglect his business, whether in-doors or without. Diet need not be changed. Cures always guaranteed, no pay required.

IMPORTANT TO FEMALES.

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the inquiry should be: "Where is there a physician competent to administer relief, and whose respectable standing in society will recommend him to the confidence of the community?" The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in a thorough manner as years of study and practice both in hospitals and private families—can make to save them from the hands of the unqualified, unscrupulous or designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble—one in whose secresy the utmost confidence can be placed—consultation by letter or otherwise, free. Cures guaranteed in all weakness and trouble incidental to the sex. Private apartments are provided, when desired, where can be had all the advantages of unremitted attention of the Doctor, and the most skillful and faithful nurses.

To Correspondents.—Persons, either male or female, residing in the interior are often deterred from consulting the Doctor because they cannot spare the time nor incur the expense of a visit to the city. To such he would say that a plain statement of the symptoms and information bearing upon the complaint will enable him to prescribe for them so that they can be treated at home. None need have any fear of detection at writing, no matter what the nature of their complaint, as the communication will be seen by no one except the Doctor, and will be treated with the utmost confidence and either be returned or destroyed.

Consultation Free.
